Term Work:

At least **10** experiments covering entire syllabus should be set to have well predefined inference and conclusion. Computation/simulation based experiments are also encouraged. The experiments should be students' centric and attempt should be made to make experiments more meaningful, interesting and innovative.

Term work assessment must be based on the overall performance of the student with every experiment graded from time to time. The grades converted into marks as per **Credit and Grading** System manual should be added and averaged. Based on this final term work grading and term work assessment should be done.

The Practical and Oral examination will be based on entire syllabus.
