

NETWORK AND INTERNET SECURITY TRAINER

MODEL - NETINS100

This Software trainer provides Network And Internet Security.

SPECIFICATIONS

1. Network And Internet Security - Software - 1 No.
2. **Books for Network And Internet Security : 10 Nos in pdf Format**
3. **Mp4 Video Class for Network And Internet Security : 40 Classes in Mp4 on Pen Drive**

FEATURES

1. **Bank Online Without Worries**
Make online transactions from a unique, dedicated browser, that secured your accounts from fraud. Bitdefender Safepay™ can now also automatically fill credit card details in billing fields.
2. **Active Virus Control**
Active Virus Control is a proactive, dynamic detection technology. It monitors processes' behavior in real time, as they are running, and tags suspicious activities.
3. **Rescue Mode**
If e-threats, such as rootkits, cannot be removed from within the Windows operating system, the computer is re-booted in Rescue mode — a trusted environment which is then used for cleanup and restoration.
4. **Quick Vulnerability Scanner**
With a single click, the vulnerability scanner automatically warns of missing or outdated software, missing Windows security patches, and potentially unsafe system settings.

Dealer:-

5. Security Report

Displays your overall security status for the past week, as well as the total issues fixed by Bitdefender since installation. Includes freed up space, optimized apps and remaining available storage.

6. Security Widget

Enables you to keep track of all of your security-related tasks, plus lets you quickly and easily drag-and-drop files for quick scanning for viruses — right from your desktop!

7. Online Dashboard

MyBitdefender offers quick online access to your local Bitdefender software, allowing you to run scans, check security statuses for each device, extend your services or easily access support.

8. Remote Management

Remotely scan and fix security issues on all of your Bitdefender-protected devices from anywhere, using MyBitdefender.

9. USB Immunizer

Immunizes any Flash Drive from viruses when they're connected to your computer so you never worry again about USBs infecting you or your friends.
